DETAILED ACTION

2. Claims 1 to 22 are presented for examination.

Response to Amendment

3. Claims 10 to 13 rejected under 35 U.S.C. 102(e) as being anticipated by Sim et al. is **withdrawn**.
4. Claims 21 to 22 rejected under 35 U.S.C. 102(b) as being anticipated by Liebergot et al. is **withdrawn**.

Allowable Subject Matter

5. Claims 1 to 22 are allowed.
6. The following is an examiner's statement of reasons for allowance: the instant invention is directed to an apparatus and a method for verification of redundancy of a functional block within a circuit, comprising: a test interface circuit receiving an input signal and supplying a testing signal indicating a function on the circuit to test.
7. The prior art made of record, taken alone or in combination, teaches an apparatus for testing an integrated circuit including a plurality of functional blocks; and a fault detection system that includes a functional block and a duplicate functional block; however, the prior art made of record is different from the instant invention in that the prior art made of record fails to teach or fairly suggest the novel element of the test interface as claimed in independent claims 10 and 21.

Specifically, the prior art made of record taken alone or in combination fails to teach or fairly suggest or render obvious an apparatus and a method for verification of redundancy of a functional block within a circuit, comprising: a test interface circuit receiving an input signal and supplying a testing signal indicating a function on the circuit to test. Dependent claims 11 to 13 and 22 are directly or indirectly dependent on claims 10 and 21 and are allowed over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
